

# **ST. ANNE CATHOLIC SCHOOL LIBRARY COMMONS**

## **Mission Statement**

Saint Anne Catholic School Library strives to ensure that students and staff are effective users of ideas and information. This mission is accomplished by

- providing intellectual and physical access to materials in all formats
- providing instruction to foster competence and stimulate interest in reading, viewing, and using information and ideas
- working with other educators to design learning strategies to meet the needs of individual students.

## **Philosophy**

The St. Anne Catholic School Library provides materials that promote the love of reading and support the curriculum of the school. The library provides printed, non-printed, and electronic resources for students, faculty, and parents. Students utilize library resources to complete assignments, explore ideas, and to select from a wide variety of recreational reading on many topics. St. Anne students will become independent library users, informed users of information, and life-long learners.
